

# Exfin Australian Personal Income Tax

## Ready Reckoner - 2019/2020 Tax Year

We regularly receive inquiries, particularly from individuals considering work assignments in Australia, asking how much tax is payable on specific levels of Australian salary or income. The table below provides you with a very quick, summarized guide to how much net income you will receive based on certain levels of taxable income in Australia. We cannot emphasize enough that these are **only indicative figures**.

Note particularly that these tax rates **do not** include the Medicare Levy or Medicare Levy Surcharge because these may not be payable by certain expatriates in Australia, or by non-residents. Non-residents also **do not** qualify for Tax Offsets.

Additionally, unless you have been quoted a remuneration package inclusive of superannuation, most individuals working in Australia will receive a superannuation guarantee (SG) payment from their employer into a pension fund based on 9.5% of their ordinary time earnings. This may be accessible, subject to tax, after departure from Australia.

Australia has a complex tax environment and we strongly recommend that individuals and/or employers seek professional tax advice prior to committing to any employment contract in Australia. Opportunities often exist to improve the tax effectiveness of the remuneration package.

Individuals or companies looking for professional tax advice can contact us through the [Exfin Tax Inquiry Form](#).

Taxable Income (AUD per Annum)	Resident Taxpayer (Net After Tax and Offsets)	Non-Resident Taxpayer (Net After Tax)
5000	5000	3375
10000	10000	6750
15000	15000	10125
20000	20000	13500
30000	28458	20250
40000	36333	27000
50000	43533	33750
60000	50133	40500
70000	56783	47250
80000	63533	54000
90000	70283	60750
100000	76283	67050
110000	84003	73350
120000	88283	79650
130000	94403	85950
140000	100703	92250
150000	107003	98550
180000	129503	117450
200000	136903	128450
250000	169403	155950
300000	197903	183450
350000	226403	210950
400000	254903	238450
